loss of the principal amount invested. Units in the Sub-fund are not Excluded Investment Products.

KEY FEATURES OF THE SUB-FUND

WHAT ARE YOU INVESTING IN?

01/2025)

TM3300211 (04/2023 01/2024

- You are investing in an Sub-Fund constituted in Singapore, which feeds predominantly into the underlying funds that resides under AIA Investment Funds, an open-ended investment company incorporated in Luxembourg and its home regulator is the Commission de Surveillance du Secteur Financier ("CSSF").
- The Sub-Fund's expected average direct and indirect exposure to equities will be approximately 60% over the long-term, however this exposure may vary from time to time. The other 40% will be invested in fixed income or money market instruments.
- The Sub-Fund is an accumulative fund that follows a Fund-of-Funds structure.

Investment Strategy

- The Sub-Fund seeks to achieve its investment objective by obtaining direct or indirect exposure to a broad range of asset classes, which may include equity and equity-related securities (including, but not limited to, common shares, preference shares, warrants, rights issues and depositary receipts (American Depository Receipts (ADRs) and Global Depository Receipts (GDRs)), fixed income and fixed income-related securities, money market instruments and cash. Indirect exposure to these asset classes will be achieved through investments in units or shares of eligible collective investment schemes, including but not limited to the Underlying Funds, exchange traded funds and other index funds.
- The asset mix may vary, depending on market conditions. There will be periodic rebalancing to minimize deviation from the stated proportions set above.

| Bonds and other fixed income securities in which the Sub-Fund may invest in are subject to credit risks, such as risk of default by issuers. You are exposed to risks of investing in specific markets. While investments in a single country, specific industries, sectoral or regional funds may present greater opportunities and potential for capital appreciation, they may be subjected to higher risks as they may be less diversified than a global portfolio. ^o The regulatory, disclosure and financial reporting standards may differ significantly from, and offer less investor protection compared to, internationally recognised standards. You are exposed to currency risks. The income earned by the Sub-Fund may be affected by fluctuations in foreign exchange rates. The Manager may actively monitor and manage the Sub-Fund's exposure to adverse foreign exchange risks by hedging through the forwards or futures markets. You are exposed to sustainability risks. Sustainability Risk is principally linked to climate-related events resulting from climate change (physical risks) or to society's response to climate change (transition risks), which may result in unanticipated losses that could affect a Sub-Fund's investments and financial condition. Social events (e.g. inequality, inclusiveness, labour relations, investment in human capital, accident prevention, changing customer behaviour, etc.) or governance shortcomings (e.g. recurrent significant breach of international agreements, bribery issues, products quality and safety, selling practices, etc.) may also translate into Sustainability Risks. | | | | |
