INVESTMENT APPROACH OF UNDERLYING FUNDS

AIA Emerging Markets Equity Fund

Underlying Fund: Schroder International Selection Fund Global Emerging Market Opportunities

The Fund aims to provide capital growth and income in excess of the MSCI Emerging Markets (Net TR) index after fees have been deducted over a three-to-five-year period by investing in equity and equity related securities of companies in emerging market countries worldwide.

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies in emerging market countries worldwide. The Fund may invest up to 40% of its assets in cash and global bonds in order to protect returns when the Investment Manager believes stock markets are expected to be particularly weak.

The Underlying Fund may invest directly in China B-Share and China H-Shares and may invest less than 20% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash. The Underlying Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Underlying Fund more efficiently.

The Underlying Fund maintains a higher overall sustainability score than the MSCI Emerging Markets (Net TR) index, based on the Investment Manager's rating criteria.

The fund is subject to the disclosure requirements in Article 8 of the SFDR*.

Please refer to Schrodgers Prospectus for further information on the investment policy / approach of the Underlying Fund.

* Pursuant to EU Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (the "SFDR"), the funds are required to disclose the manner in which Sustainability Risks are integrated into the investment decision and the results of the assessment of the likely impact of Sustainability Risks on the returns of the funds.

AIA Regional Equity Fund

Underlying Fund: Fidelity Funds – Asia Equity II ESG Fund

The Underlying Fund aims to achieve capital growth over the long term. The Underlying Fund invests at least 70% (and normally 75%) of its assets, in equities of companies that are headquartered, listed, or do most of their business in Asia (excluding Japan), including emerging markets. The Underlying Fund will comply with the Singapore Central Provident Fund Board's investment guidelines. The Underlying Fund may also invest in money market instruments on an ancillary basis.

The Underlying Fund may invest in the following assets according to the percentages indicated:

- less than 30% of its assets (directly and/or indirectly) in China A and B Shares (in aggregate)
- SPACs: less than 5%

The fund is subject to the disclosure requirements in Article 8 of the SFDR*.

Please refer to the Fidelity Funds Singapore Prospectus for further information on the investment policy of the Underlying Fund.

AIA Japan Equity Fund

Underlying Fund: Nikko AM Shenton Japan Fund

The investment objective of the Fund is to achieve medium to long-term capital appreciation by investing in a diversified portfolio of equity investments listed in Japan.

The Fund may also invest in bonds, money market and other instruments (including instruments included under the Central Provident Fund ("CPF") Investment Scheme ("CPFIS")). There is no target industry or sector. Currently, the Fund does not invest into bonds.

The Investment Manager believes that active investment management can add value to investors. The Investment Manager seeks to add value by selectively over/under weighting benchmark components to achieve relative out-performance and carefully blending the mix with a selection of non-benchmark components to deliver absolute out-performance.

The SGD Class of the Fund is included under the CPFIS – Ordinary Account and is classified under the Higher Risk – Narrowly Focused – Country – Japan category by the CPF Board.

Please refer to Nikko AM Prospectus for further information on the investment policy / approach of the Underlying Fund.

AIA European Equity Fund

Underlying Fund: Capital Group European Growth and Income Fund (Lux)

Since 1931, Capital Group has been singularly focused on delivering superior, consistent results for long-term investors. Capital Group achieves this through high-conviction portfolios, rigorous global research effort and insistence on individual accountability. Capital Group's investment philosophy is to make Capital Group more knowledgeable investors through intensive global research. Capital Group uses a fundamental bottom-up approach based on thorough, detailed research supported by direct management contact.

In Capital Group's experience, investing successfully means taking a long-term view. Capital Group, therefore, emphasises long-term investments in companies and go to great lengths to determine the difference between the fundamental value of a company and its price in the marketplace. The investment professionals seek to identify securities that can do well over several years, by using fundamental analysis and paying close attention to valuations. While this approach may often involve taking a non-consensus view, the expectation is that new information will come to light that validates Capital Group's opinions and steers the consensus view in Capital Group's favour.

Capital Group believes in the value of diverse styles and perspectives. Their investment process, The Capital System, is designed to enable individual investment professionals to act on their highest convictions, while limiting the risk associated with isolated decision-making. Each portfolio is divided into portions that are managed independently by investment professionals with diverse backgrounds, experience and investment approaches. A disciplined, multi-layered governance structure oversees the system's operation.

Please refer to Capital Group's Prospectus for further information on the investment policy / approach of the Underlying Fund.

AIA US Equity Fund

Underlying Fund: PineBridge US Large Cap Research Enhanced Fund

The investment objective of the Fund is to attain long term growth of capital by means of a diversified portfolio through investment in equity and equity-related securities of companies, at least 90% of which have assets, products or operations based in the United States and are included in the Russell 1000 Index. Up to 10% of the value of the Fund may be invested in other companies which have a US Stock Exchange listing.

The Fund may use financial derivatives instrument ("FDI") for hedging and (subject to the CPF Board' approval) efficient portfolio management purposes. It will not use FDI extensively for any purpose. The Fund engages in forward foreign exchange contracts for hedging purposes, to alter the currency exposure of the underlying assets and may also hedge currency exchange risk by using FDI.

Please refer to PineBridge Global Fund's Prospectus for further information on the investment policy / approach of the Underlying Fund.

AIA Global Bond Fund

Underlying Fund: Franklin Templeton Western Asset Global Bond Trust

The Fund's investment policy will be to pursue an active but prudent approach which employs fundamental economic and market analysis to take maximum advantage of short and medium to long term investment opportunities in interest rate and currency trends of the global bond markets.

It is intended that the Fund achieves its investment objective by investing primarily in the following types of debt securities :Fixed and floating rate government and corporate bonds plus convertible bonds, commercial papers, bankers acceptances, bills of exchange, certificates of deposits, promissory notes, bank bills and treasury bills issued by governments, government linked companies and corporations in (a) Singapore; (b) countries as defined by the FTSE World Government Bond Index ex Japan (currently these countries include USA, Germany, France, UK, Canada, Italy, the Netherlands, Denmark, Finland, Spain, Ireland, Austria, Australia, Sweden, Norway, Belgium, Mexico, Poland, Singapore and Malaysia); or (c) in countries that are rated with a minimum of investment grade credit rating of Aa2 by Moody's, AA by Standard & Poor's ("S&P"), AA by Fitch Inc. or its equivalent investment grading by any other internationally reputable credit rating agency. Since 3 January 2005, the Fund's investments in Japanese debt securities have been limited to 10% of its Deposited Property. Such investments in Japanese debt securities have been restricted to a minimum investment grade credit rating of A2 by Moody's, A by S&P, A by Fitch Inc. or its equivalent investment grading by any other internationally reputable credit rating agency. Otherwise, the Fund will place its monies on short term fixed deposits with banks that are rated with a minimum short term rating of A2 and P2 as defined by S&P and Moody's respectively and long term rating of A and A3 as defined by S&P and Moody's respectively.

To ensure that the Fund owns a portfolio of debt securities with high credit quality, it will only invest in debt securities issued by governments of benchmark countries or debt securities of issuers with a minimum credit rating of Aa2 by Moody's, AA by S&P, AA by Fitch Inc. or its equivalent investment grading by any other internationally reputable credit rating agency (and for issuers of Japanese debt securities, a minimum credit rating of A2 by Moody's, A by S&P, A by Fitch Inc. or its equivalent investment grading by any other internationally reputable credit rating agency).

The benchmark is not used as a constraint on how the Fund's portfolio is positioned. The Investment Managers have discretion over the portfolio construction and may invest in debt securities within and outside of the benchmark where it fits with the investment objective. The benchmark is also used for performance comparison purposes and as a reference to assess and manage risk.

To protect the Singapore Dollar value of the Fund's investments, the Investment Managers may employ an active currency hedging programme to manage their non-Singapore Dollar currency exposure. For prudent management of the underlying foreign currency exposures of the bond investments in the Fund, the hedging back into the Singapore Dollar - the base currency of the Fund - may range from 0% to 100% of the Fund's net asset value at all times, i.e., the Fund may range between being fully unhedged to fully hedged, but would never be leveraged in foreign currency exposure.

To assist diversification of credit risks, other than sovereign or sovereign related credit risks, exposure to any one corporate issuer is restricted to no more than 10% of the total value of the Deposited Property of the Fund.

In order to ensure a greater degree of liquidity or marketability of the investments, the Fund will not invest in more than 5% of the aggregate issued and outstanding securities of any single issue.

The Investment Managers currently do not intend to engage in securities lending and/or carry out repurchase transactions. However, should the Investment Managers decide to engage in securities lending or repurchase transactions for the Fund, they shall comply with all applicable laws and regulations relating to securities lending and repurchase transactions.

Please refer to Franklin Templeton Prospectus for further information on the investment policy / approach of the Underlying Fund.

AIA Regional Fixed Income Fund

To provide SGD-based investors with an alternative to bank fixed deposits, the Investment Manager aims to achieve higher returns with low incremental risks. The Fund seeks to provide stable income and preserve capital through the prudent management of interest rate risk, implemented by pro-active duration and yield curve strategies, as well as credit risk through a disciplined and stringent process of credit underwriting. Investments in foreign currency denominated fixed income instruments will be hedged.

The Fund will invest based on eligible securities stipulated in the CPF Investment Guidelines and the Code on Collective Investment Schemes ("Code"). The investment process is a combination of bottom-up research with top-down analysis of the global environment.

Please refer to the AIA Investment Funds Prospectus for further information on the investment policy of the Underlying Funds.

In the event that the Investment Manager were to become insolvent, the assets of the ILP Sub-Fund would not be affected as they continue to be held by the Custodian in an account separate from the Investment Manager's other accounts.

CONFLICT OF INTEREST

The managers of the ILP Sub-Fund and Underlying Fund(s) shall conduct all transactions with or for the ILP Sub-Fund at arm's length. The managers are obligated to separately manage the investments for the ILP Sub-Fund and other funds under their management. If the various funds place orders for the same securities as the ILP Sub-Fund, the managers shall, as far as possible, allocate such securities among the funds in a fair manner.

The managers and their respective associates are or may be involved in other financial, investment and professional activities which may on occasion give rise to a conflict of interest with the management of the ILP Sub-Fund or the Underlying Fund(s). The managers will ensure that the performance of their respective duties will not be impaired by any such involvement. In the event that a conflict of interest does arise, the managers shall endeavour to ensure that it is resolved fairly and in the interest of investors.

RISKS

Credit Risk

Bonds and other fixed income securities and bank deposits are subject to credit risks, such as deterioration in the credit quality of the issuers, default by issuers and banks and general widening of credit spreads. This means that their values and consequently, the Net Asset Value of the ILP Sub-Fund which invest in such securities directly or through Underlying Fund, will fluctuate depending on the credit risk of the securities. A deterioration in the credit quality of the issuers, default by issuers or increase in credit risk premiums will generally reduce the value of the fixed income securities. The performance of each ILP Sub-Fund which invests in bonds and other fixed income securities and bank deposits directly or through Underlying Fund, therefore will depend in part on the ability of the Manager of the ILP Sub-Fund or the Underlying Fund to anticipate and respond to such changes in credit risk and to utilise appropriate strategies to maximise returns to you while attempting to minimise the associated risks to its investment capital.

Derivative Risk

The ILP Sub-Fund and the Underlying Fund are authorised to use derivative instruments from time to time. Derivative instruments are financial contracts whose values are "derived" from the value of the underlying assets. While the professional use of derivatives may be beneficial to the overall investment portfolio, derivatives in themselves involve different risks which may be greater than those of more traditional investments.

As the volatility of prices of derivative instruments may be higher than that of their underlying stocks, commodities or other benchmarks, these derivative instruments are riskier.

Equity Risk

The value of the equity securities which the ILP Sub-Fund invest directly in or through Underlying Fund, will fluctuate depending upon the general trends of stock markets, prevailing interest rates as well as the financial and operating performance of the issuers of those equity securities. The economic environment of the countries and the performance of the industries which the ILP Sub-Fund invests in directly or through Underlying Fund will have an impact on the value of the equity securities acquired. The value of the ILP Sub-Fund and the Underlying Fund are affected by such changes in the market conditions and interest rates.

Counterparty Risk

There is a risk of counterparty defaulting in some markets as there may be no secure method of delivery against payment. It may be necessary to make payment on a purchase or delivery on a sale before receipt of the securities or, as the sale may be, sale proceeds.

Currency / Exchange Rate Risk

The Net Asset Value per unit of the ILP Sub-Fund are computed in Singapore Dollars, whereas certain Underlying Fund and the securities which the ILP Sub-Fund invests in are denominated in foreign currencies. Changes in the exchange rate of the Singapore Dollar against the currencies of denomination of the Underlying Fund and the securities which the ILP Sub-Fund invests in will have an impact on the value of the units.

The investments of the ILP Sub-Fund and the Underlying Fund may each be denominated in a number of different currencies and hence be subjected to fluctuations in currency exchange rates and in certain cases, exchange control regulations. Further, the underlying investments of the Underlying Fund may be acquired in a wide range of currencies, some of which may not be freely convertible currencies. It may not be possible or practicable to hedge against the consequent currency risk exposure and in certain instances the manager may not consider it desirable to hedge against such risk. The manager will enter hedging transactions at its sole discretion.

If you are a non-Singaporean, there may be state regulations governing the outward remittance of your share of net profits and dividends and the repatriation of your investments in a foreign currency.

General Risk

The value of the ILP Sub-Fund and the Underlying Fund's assets may be affected by uncertainties and risks associated with investments. The Net Asset Value of the ILP Sub-Fund and the Underlying Fund will be influenced by the prices of these investments. This will in turn have an impact on the value of Units of the ILP Sub-Fund. Past performance is not necessarily a guide to future performance and investment in the ILP Sub-Fund should be regarded as a medium to long-term investment.

Interest Rate Risk

Bonds and other fixed income securities are interest rate sensitive, which means that their values and consequently, the Net Asset Value of the ILP Sub-Fund which invest in such securities directly or through Underlying Fund, will fluctuate as interest rates fluctuate. An increase in interest rates will generally reduce the value of the fixed income securities. The performance of each ILP Sub-Fund which invests in bonds and other fixed income securities directly or through Underlying Fund, therefore will depend in part on the ability of the Manager of the ILP Sub-Fund or the Underlying Fund to anticipate and respond to such fluctuations in market interest rates and to utilise appropriate strategies to maximise returns to you while attempting to minimise the associated risks to its investment capital.

Investment Risk

There can be no guarantee against loss, nor any assurance that the ILP Sub-Fund's investment objective will be attained. The value of investments and the income from them and therefore the value of, and income from, the Units of each ILP Sub-Fund can fall as well as rise and you may not realize the same amount that you invested. Investment in the ILP Sub-Fund may only be suitable for you if you can accept the associated volatility and risks and are prepared to take a medium to longer term view of your investment.

Liquidity Risk

There is no secondary market for the ILP Sub-Fund. All redemption requests should be made to AIA Customer Service Centre or through your AIA Financial Services Consultant or Insurance Representative. If you are a non-Singaporean, there may be state regulations governing the outward remittance of your share of net profits and dividends and the repatriation of your investments in a foreign currency.

You should note that there may be a limit on the number of units that can be redeemed on any Dealing Day and an investor may not be able to redeem on a Dealing Day if the redemption limit is imposed. Should a limit be imposed, a redemption request may be deferred to the next Dealing Day (which is subject to the same limit) if the redemptions exceed the limit on that day.

Some investments made in smaller markets may be less liquid and the limited liquidity of these markets may therefore affect the respective underlying fund's ability to acquire or dispose of securities at the price and time it desires.

Market Risk

The value of the ILP Sub-Fund and the Underlying Fund's assets may be affected by uncertainties such as international political developments, changes in government policies, taxation, restrictions on foreign investment and currency repatriation, currency fluctuations and other developments in the laws and regulations of countries in which investments may be made. Furthermore, it should be noted that the legal infrastructure and accounting, auditing and reporting standards in certain countries in which investments may be made do not provide the same degree of investor protection or information to you as would generally apply in major securities markets. As the ILP Sub-Fund and Underlying Fund invest in securities in various markets, e.g. global, Asia ex-Japan, etc, the Net Asset Value of the ILP Sub-Fund and Underlying Fund will be influenced by the prices of these investments. This will in turn have an impact on the value of Units of the ILP Sub-Fund.

Political Risk

Investments in countries with less stable political and economic environments may be more volatile than those in the developed countries. The prices of investments in these markets may be influenced by economic and political conditions and interest rates.

QFII

Under the prevailing regulations in the PRC, foreign investors can invest in China A Shares through institutions that have obtained QFII status in the PRC. The current QFII regulations impose strict restrictions (including rules on investment restrictions, minimum investment holding period as well as remittance and repatriation of principal and profits) on China A Share investment. The ILP Sub-Fund may not be able to freely repatriate principal and profits from China and there may be potential lock-up periods imposed for repatriation. The restrictions on or the delays in the repatriation of principal and profits may have an unfavourable impact on the ILP Sub-Fund. The QFII policy and related laws, rules and regulations in the PRC are also subject to change and such change may have potential retrospective effect. The ILP Sub-Fund's ability to make the relevant investments or to fully implement or pursue its investment objective and strategy is subject to such laws, rules and regulations. Investments by a fund in China A Shares and other permissible securities denominated in Renminbi will be made through the QFII in Renminbi. In extreme circumstances, the ILP Sub-Fund may incur losses due to limited investment opportunities, or may not be able to fully implement or pursue their investment objectives or strategy, due to QFII investment restrictions, illiquidity of the China A Shares, and/or delay or disruption in execution of trades or in settlement of trades.

The ILP Sub-Fund may also suffer substantial losses if there is insufficient QFII quota allocated for the ILP Sub-Fund to make investments, the approval of the QFII is being revoked/terminated or otherwise invalidated as the ILP Sub-Fund may be prohibited from trading of relevant securities and repatriation of the funds' monies, or if any of the key operators or parties (including QFII custodian/brokers) is bankrupt/in default and/or is disqualified from performing its obligations (including execution or settlement of any transaction or transfer of monies or securities).

Regulatory Risk

You should be aware that some of the industries which the ILP Sub-Fund and the Underlying Fund invest in may be subject to greater government regulations than many other industries in certain countries. Changes in government policies and the need for regulatory approval may have a material adverse effect on these industries. The companies which the ILP Sub-Fund invests in directly or through Underlying Fund may also be subject to risks of developing technology and communications, competitive pressures and other factors and are dependent upon consumer and business acceptance as new technologies evolve. Trading in such securities may be subject to more abrupt price movements.

Specialized Investment Risk

You should be aware while specialized investments, i.e. investments in a single country, specific industries, sectoral or regional Fund may present greater opportunities and potential for capital appreciation, they may also be subjected to higher risks as they may be less diversified than a global portfolio. The legal infrastructure and accounting, auditing and reporting standards in certain countries in which investments may be made do not provide the same degree of investor protection or information to you as would generally apply in major securities markets.

Stock Connect, Small and Medium Enterprise ("SME") board, ChiNext market

The ILP Sub-Fund and the Underlying Fund may invest in China A-Shares of mainland China through the Shanghai-Hong Kong Stock Connect and/or the Shenzhen-Hong Kong Stock Connect. The current regulations relating to the Stock Connect are untested and subject to change which may have potential retrospective effects. The Stock Connect is subject to quota limitations which may restrict the ILP Sub-Fund's and the Underlying Fund's ability to invest in China A-Shares through the Stock Connect on a timely basis. Where a suspension in the trading through the Stock Connect is effected, the ILP Sub-Fund's and the Underlying Fund's ability to access the mainland China market will be adversely affected. The mainland China regulations impose certain restrictions on selling. Hence the ILP Sub-Fund and the Underlying Fund may not be able to dispose of holdings of China A-Shares in a timely manner. When a stock is recalled from the scope of eligible stocks for trading via the Stock Connect, the stock can only be sold but restricted from being bought. Due to the differences in trading days of the mainland China and the Hong Kong markets, the ILP Sub-Fund and the Underlying Fund may be subject to a risk of price fluctuations in China A-Shares during the time when the Stock Connect is not trading as a result.

Trading in securities through the Stock Connect is subject to clearing and settlement risk. If Clearing Corporation Limited ("ChinaClear") defaults, the ILP Sub-Fund and the Underlying Fund may suffer delays in the recovery process or may not be able to fully recover its losses from ChinaClear. Further, the investments of the ILP Sub-Fund and the Underlying Fund are not covered by Hong Kong's Investor Compensation Fund.

Restrictions on selling are imposed by front-end monitoring. PRC regulations require that before an investor sells any share, there should be sufficient shares in the account; otherwise Shanghai Stock Exchange ("SSE") will reject the sell order concerned. Stock Exchange of Hong Kong Limited ("SEHK") will carry out pre-trade checking on China A Shares sell orders of its participants (i.e. the stock brokers) to ensure there is no over-selling.

The Stock Connect is subject to operational risk. If the systems of the Stock Exchange of Hong Kong Limited ("SEHK") and market participants fail to function properly, trading in both markets through the program could be disrupted.

The precise nature and rights of the Underlying Fund as the beneficial owners of the China A-Shares through Hong Kong Securities Clearing Company Limited ("HKSCC") as nominee is not well defined under the mainland China law. Therefore the exact nature and methods of enforcement of the rights and interests of the Underlying Fund under the mainland China law is uncertain. If HKSCC becomes subject to winding up proceedings in Hong Kong it is not clear if the China A-Shares will be regarded as held for the beneficial ownership of the Underlying Fund or as part of the general assets of HKSCC available for general distribution to its creditors.

The China Securities Regulatory Commission ("CSRC") Stock Connect rules are departmental regulations having legal effect in the PRC. However, the application of such rules is untested, and there is no assurance that PRC courts will recognise such rules, e.g. in liquidation proceedings of PRC companies.

The Stock Connect is novel in nature, and is subject to regulations promulgated by regulatory authorities and implementation rules made by the stock exchanges in the PRC and Hong Kong. Further, new regulations may be promulgated from time to time by the regulators in connection with operations and cross-border legal enforcement in connection with cross-border trades under the Stock Connect. Such regulations may also have potential retrospective effect.

The regulations are untested so far and there is no certainty as to how they will be applied. Moreover, the current regulations are subject to change. There can be no assurance that the Stock Connect will not be abolished. The relevant funds which may invest in the PRC markets through Stock Connect may be adversely affected as a result of such changes.

The ILP Sub-Fund and the Underlying Fund may invest in the Small and Medium Enterprise ("SME") board and/or the ChiNext market of the Shenzhen Stock Exchange via the Shenzhen-Hong Kong Stock Connect. Investments in the SME board and/or ChiNext market may result in significant losses for the Fund and its investors. Additional risks, namely, higher fluctuation on stock prices, over-valuation risk, differences in regulations and delisting risk, apply to such investments.

Sustainability Risk

Sustainability Risk is principally linked to climate-related events resulting from climate change (physical risks) or to society's response to climate change (transition risks), which may result in unanticipated losses that could affect a ILP Sub-Fund's investments and financial condition. Social events (e.g. inequality, inclusiveness, labour relations, investment in human capital, accident prevention, changing customer behavior, etc.) or governance shortcomings (e.g. recurrent significant breach of international agreements, bribery issues, products quality and safety, selling practices, etc.) may also translate into Sustainability Risk.

Taxation

You should note that the proceeds from the sale of securities in some markets or the receipt of any dividends or some other income may be or may become subject to tax, levies, duties or other fees or changes imposed by the authorities in that market, including taxation levied by withholding at source.

EXPENSE RATIO

The expense ratio for the period 1 January 2024 to 31 December 2024 is 1.75%.

The expense ratio is calculated in accordance with the Investment Management Association of Singapore's guidelines on the disclosure of expense ratios and based on the figures in the ILP Sub-Fund's latest audited account.

The following expenses are excluded from the calculation of the expense ratio:

- (a) charges for insurance coverage;
- (b) brokerage and other transaction costs;
- (c) performance fees;
- (d) foreign exchange gains and losses;
- (e) front or back-end loads arising from the purchase or sale of other funds; and
- (f) tax deducted at source or arising from income received.

TURNOVER RATIO

The turnover ratio of the ILP Sub-Underlying Fund follows that of the Underlying Funds as the ILP Sub-Fund invests all or substantially all of its assets into its Underlying Funds.

Sub-Underlying Funds	AIA Emerging Markets Equity Fund	AIA Regional Equity Fund	AIA Japan Equity Fund	AIA European Equity Fund	AIA US Equity Fund	AIA Global Bond Fund	AIA Regional Fixed Income Fund
Turnover ratio	45.57%*	98.29%*	34.30%*	34.12%*	130.58%*	53.39%*	77.75%*

SOFT DOLLAR ARRANGEMENT

Schroder International Selection Fund Global Emerging Market Opportunities

The Investment Manager of the Underlying Fund may enter into soft commission arrangements only where there is a direct and identifiable benefit to the clients of the Investment Manager, including the Underlying Fund, and where the Investment Manager of the Underlying Fund is satisfied that the transactions generating the soft commissions are made in good faith, in strict compliance with applicable regulatory requirements and in the best interests of the Underlying Fund. Any such arrangements must be made by the Investment Manager of the Underlying Fund on terms commensurate with best market practice

Fidelity Funds – Asia Equity II ESG Fund

The Investment Manager of the Underlying Fund, any of its delegates and/or any of their Connected Persons may effect transactions by or through the agency of another person with whom the Investment Manager of the Underlying Fund, any of its delegates and/or any of their Connected Persons have an arrangement under which that party will from time to time provide to or procure for the Investment Manager of the Underlying Fund, any of its delegates and/or any of their Connected Persons goods, services or other benefits (such as research and advisory services, where permitted by regulation only) ("soft dollar arrangements"), the nature of which is such that their provision can reasonably be expected to benefit the SICAV as a whole and may contribute to an improvement in the SICAV's performance and that of the Investment Manager of the Underlying Fund or any of its delegates in providing services to the SICAV and for which no direct payment is made but instead the Investment Manager of the Underlying Fund, any of its delegates and/or any of their Connected Persons undertake to place business with

that party. For the avoidance of doubt, such goods and services do not include travel, accommodation, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employee salaries or direct money payments. Periodic disclosure is made in the annual report of the SICAV in the form of a statement describing the soft dollar policies and practices of the Investment Manager of the Underlying Fund or its delegates, including a description of goods and services received by them and/or any of their Connected Persons.

The Investment Manager of the Underlying Fund, any of its delegates and/or any of their Connected Persons shall not retain the benefit of any cash commission rebate (being cash commission repayment made by a broker or dealer to the Investment Manager of the Underlying Fund, any of its delegates and/or any of their Connected Persons) paid or payable from any such broker or dealer in respect of any business placed with such broker or dealer by the Investment Manager of the Underlying Fund, any of its delegates and/or any of their Connected Persons for or on behalf of the SICAV. Any such cash commission rebate received from any such broker or dealer shall be held by the Investment Manager of the Underlying Fund, any of its delegates and/or any of their Connected Persons for the account of the SICAV. Brokerage rates will not be excessive of customary institutional full-service brokerage rates. All transactions will be done with best execution.

The availability of soft dollar arrangements may not be the sole or primary purpose to perform or arrange transaction with such broker or dealer. Further information in respect of fees related to investment research, including the maximum that may be charged to a fund is available at the registered office of the SICAV or at fidelityinternational.com/research budget.

Nikko AM Shenton Japan Fund

In their management of the Nikko AM Shenton Japan Fund, the Investment Managers currently do not receive or enter into any soft dollar commissions or arrangements.

Capital Group European Growth and Income Fund (Lux)

None of the Management Company nor the Investment Advisers may retain cash or other rebates from a broker or dealer in consideration of directing transactions in a Fund's assets to such broker or dealer. Without prejudice to the foregoing, none of the Management Company nor the Investment Advisers currently retain soft dollars in respect of the Funds.

PineBridge US Large Cap Research Enhanced Fund

In managing PineBridge US Large Cap Research Enhanced Fund, PineBridge Ireland and its Investment Managers may utilise brokers with whom soft commission arrangements are in place. A report will be included in the PineBridge Global Fund's annual and semi-annual reports to the extent that PineBridge Global Fund's brokerage commissions are utilised to satisfy any soft commission obligations. Any such arrangements will provide for Best Execution (as defined below) and any goods or services received will be of a type which assists in the provision of investment services to PineBridge Global Funds. Neither PineBridge Ireland, its Investment Managers nor any of their connected persons will retain the benefit of any cash commission or rebate (being cash commission repayment made by a broker or dealer) paid or payable by any such broker or dealer in respect of any business placed with such broker or dealer by PineBridge Ireland, their Distributors or sub-distributors, or any of their connected persons for or on behalf of any sub-fund of the PineBridge Global Fund. Any such cash commission rebate received from any such broker or dealer shall be held for the account of the relevant sub-fund of PineBridge Global Fund.

"Best Execution" means the best price the best possible result for the relevant sub-fund, taking into account price, costs, speed, likelihood of execution and settlement, order size and nature, or any other consideration relevant to the execution of the order.

Franklin Templeton Western Asset Global Bond Trust

The Managers and Sub-Investment Managers of the Franklin Templeton Western Asset Global Bond Trust currently do not but shall be entitled to receive and enter into soft-dollar commissions/arrangements in respect of the Trust. The Managers and Sub Managers will comply with applicable regulatory and industry standards on soft-dollars. The soft-dollar commissions which the Managers and Sub-Investment Managers may receive include specific advice as to the advisability of dealing in, or the value of any investments, research and advisory services, economic and political analyses, portfolio analyses including valuation and performance measurements, market analyses, data and quotation services, computer hardware and software or any other information facilities to the extent that they are used to support the investment decision making process, the giving of advice, or the conduct of research or analysis, and custodial service in relation to the investments managed for clients. Soft-dollar commissions received shall not include travel, accommodation, entertainment, general administrative goods and services, general office equipment or premises, membership fees, employees' salaries or direct money payment.

The Managers and the Sub-Investment Managers will not accept or enter into soft dollar commissions/arrangements unless such soft-dollar commissions/arrangements would, in the opinion of the Managers or the relevant Sub-Investment Manager (as the case may be), assist it in its management of the Franklin Templeton Western Asset Global Bond Trust, provided that it shall ensure at all times that best execution is carried out for the transactions, and that no unnecessary trades are entered into in order to qualify for such soft-dollar commissions/arrangements.

.AIA Regional Fixed Income Fund

In the management of the Fund, the Manager currently does not receive or enter into any soft dollar commissions or arrangements.

Risk Disclosure Statement for Funds

US Tax Withholding and Reporting under the Foreign Account Tax Compliance Act ("FATCA")

Under the FATCA provisions of the U.S. Hiring Incentives to Restore Employment ("HIRE") Act, where a Fund invests directly or indirectly in U.S. assets, payments to the Fund of U.S.-sourced income after 30 June 2014, gross proceeds of sales of US property by the Fund after 31 December 2016 and certain other payments received by the Fund after 31 December 2016 will be subject to 30% U.S. withholding tax unless the Fund complies with FATCA.

FATCA compliance can be achieved by entering into an agreement with the U.S. Secretary of the Treasury under which the Fund agrees to certain U.S. tax reporting and withholding requirements as regards holdings of and payments to certain investors in the Fund. Certain governments may enter into agreements directly with the U.S. government concerning U.S.-sourced income and the regulations and rules which are issued following these agreements will determine how the Fund can achieve FATCA compliance.

If the Fund is unable to satisfy the obligations imposed to avoid the imposition of the withholding tax, certain U.S.-sourced payments to the Fund may be subject to 30% withholding tax, which could reduce the cash available for investors. Any amounts of U.S. tax withheld may not be refundable by the Inland Revenue Service.

You are advised to consult your professional advisors on the impact of FATCA on any Fund that you have selected for allocation of any part of your Policy premium(s) and AIA Singapore makes no representation or warranty that a Fund is FATCA-compliant.

In the context of the above, a "Fund" means a collective investment scheme within the meaning of the Securities and Futures Act 2001, Singapore and the Notice No. MAS 307 applicable to Investment-Linked Policies issued by the Monetary Authority of Singapore.
