Fund Summary (IFPS)
Prepared on May 2021

AIA Elite Adventurous Fund (the “ILP Sub-Fund”)

FUND FACTS

Manager of ILP Sub-Fund	AIA Investment Management Private Limited
Inception Date	19 July 2019
Annual Management Fee ¹ (p.a.)	1.45% (max 3.0%) of Net Asset Value
Source of Fund	Cash & SRS
Fund Risk Classification	Higher Risk

The ILP Sub-Fund is a fund of funds and will primarily invest into the Underlying Funds that resides under the investment vehicle - AIA Investment Funds (“SICAV”). AIA Investment Funds is an open-ended investment company established on 23 May 2019 in Luxembourg as a société d’investissement à capital variable (“SICAV”) and qualifies as an undertaking for collective investment in transferable securities (“UCITS”) and has obtained recognition under the Directive 2009/65/EC of the European Parliament and of the Council for marketing in certain Member States of the European Union.

¹ The Annual Management Fee is payable through deduction from asset value of the ILP Sub-Fund.

The ILP Sub-Fund is a single fund. The units in the ILP Sub-Fund are not classified as Excluded Investment Products.

PAST PERFORMANCE (as at 28 February 2021)

Annualized Returns	1 year	3 years	5 years	10 years	Since Inception
AIA Elite Adventurous Fund	37.75%	N/A	N/A	N/A	22.40%
Benchmark*: 90% MSCI World Total Net Return Index and 10% Bloomberg Barclays Global Aggregate Corporate Total Return Index.	20.90%	N/A	N/A	N/A	13.15%

*The combined benchmark is reflective of the investment focus of the ILP Sub-Fund.

Notes:

1. Performance of the ILP Sub-Fund are calculated in SGD on a bid to bid basis with any income or dividends reinvested, but excluding such fees and/or charges which may be payable through deduction of premium or cancellation of units.
2. Past performance of an ILP Sub-Fund is not necessarily indicative of its future performance.

INVESTMENT OBJECTIVE OF ILP SUB-FUND

The ILP Sub-Fund seeks long-term total return (combination of capital growth and income) by investing in a portfolio of equities and fixed income securities. The ILP Sub-Fund’s expected average direct and indirect exposure to equities will be approximately 90% over the long-term, however this exposure may vary from time to time. The other 10% will be invested in fixed income or money market instruments.

INVESTMENT APPROACH OF ILP SUB-FUND

The ILP Sub-Fund seeks to achieve its investment objective by obtaining direct or indirect exposure to a broad range of asset classes, which may include equity and equity-related securities (including, but not limited to, common shares, preference shares, warrants, rights issues and depositary receipts (American Depositary Receipts (ADRs) and Global Depositary Receipts (GDRs)), fixed income and fixed income-related securities, money market instruments and cash. Indirect exposure to these asset classes will be achieved through investments in units or shares of eligible collective investment schemes, including but not limited to the Underlying Funds, exchange traded funds and other index funds.

The asset mix may vary, depending on market conditions. There will be periodic rebalancing to minimize deviation from the stated proportions set above.

The Manager of the ILP Sub-Fund, may from time to time at their sole discretion:

- Vary the percentage of assets of the ILP Sub-Fund which may be invested into the Underlying Funds residing under AIA Investment Funds and may, subject to such regulatory approvals as may be required, vary the jurisdictions and types of Underlying Funds into which the fund may invest, in accordance with the investment objective and policy of the ILP Sub-Fund.
- Revise the list of Underlying Funds residing in the AIA Investment Funds to achieve the investment objective and policy of the ILP Sub-Fund.

Asset mix determination

The Manager is responsible for the selection and allocation of capital to the Underlying Funds to meet the investment objective of the ILP Sub-Fund and will maintain the asset allocation range of the ILP Sub-Fund for the different asset classes. The following table list out the indicative ranges:

Asset Type	Indicative Percentage of the ILP Sub-Fund's Net Asset Value
Equity and equity-related securities	70-100%
Fixed income and fixed income-related securities	0-30%
Money market instruments, cash and near-cash instruments	0-5%

Based on top-down analysis on major economic development, valuation and market factors such as technical trends, investor sentiment, earnings and momentum, the Manager makes asset allocation decision across asset classes and within asset classes. More specifically, the Manager will analyze macroeconomic trends to determine how the asset prices will react to the macro developments. To ensure the comprehensiveness of the top-down analysis, the Manager conducts both quantitative assessment and qualitative research on financial markets. On the quantitative front, the Manager systematically analyzes macro variables through quantitative scorecards to form views on the expected performance of various asset classes. On the qualitative front, there are regular asset allocation meetings between the Manager and other investment professionals across the AIA Group to discuss major economic developments and outlook on the financial markets. These meetings will form the basis of the Manager's outlook on financial markets and drive the asset allocation decisions between asset classes, as well as within asset classes.

Selection of external manager

In relation to the selection of collective investment schemes, the Manager has in place a robust external manager evaluation process, which utilises a systematic and disciplined quantitative screening method to effectively shortlist external managers on the basis of their historical performance. The shortlisted external managers are then subject to a thorough due diligence process which involves both quantitative and qualitative analysis. The due diligence quantitative analysis seeks to evaluate how and why the external managers have delivered in the past. The qualitative due diligence assessment will help (a) ascertain observations derived from the quantitative analysis, (b) thoroughly understand the process of an external manager as well as the resources supporting these processes and (c) establish the level of conviction that the Manager needs so as to make an allocation. Selected external managers are then monitored on an ongoing basis.

INVESTMENT APPROACH OF UNDERLYING FUNDS

AIA Investment Funds - AIA Global Quality Growth Fund

The fund invests primarily, i.e. at least 50% of its Net Asset Value, in equity securities and equity related securities of companies globally which demonstrates potential of quality growth in the long term.

The Investment manager will adopt a long term investment horizon and will look at indicators such as the long term strategic direction and culture of a company, capital allocation, skill of the management team and their level of alignment with shareholders to identify companies which in their opinion is running the business for the long term.

AIA Investment Funds - AIA New Multinationals Fund

The fund invests primarily, i.e. at least 50% of its Net Asset Value, in equity securities and equity-related securities issued by companies globally with a bias towards large cap companies.

The fund will be diversified by industry and country, and the portfolio will be designed to ensure high liquidity with a relatively lower turnover. The fund will generally invest in developed countries, and may invest up to 20% of its net assets in countries, which are considered to be emerging markets or frontier markets.

The Investment Manager will adopt a long-term investment horizon and select companies based on compelling fundamental merits and attractive management stewardship profile. The fund will not be subject to any geographic, industry or sector restrictions.

AIA Investment Funds - AIA Diversified Fixed Income Fund

The fund invests primarily, i.e. at least 50% of its Net Asset Value, in USD-denominated fixed or floating rate fixed income securities issued by government, agencies and companies globally. The fund can invest in securities issued by issuers domiciled outside of the US as long as they are denominated in USD.

The fund will primarily invest in securities rated investment grade (BBB- or above rated by Standard & Poor's, Baa3 or above by Moody's and BBB- or above by Fitch or an equivalent rating from an internationally recognised rating agency) and non-investment grade securities shall not exceed 20% of the net assets of the fund. The fund will not invest in distressed or default securities (rated CCC+ (or equivalent) or below).

AIA Investment Funds - AIA Global Multi-Factor Equity Fund

The fund invests primarily, i.e. at least 50% of its Net Asset Value, in equities and equity-related securities of companies worldwide that exhibit the characteristics of certain investment factors that drive the long-term return of equities. The fund will gain exposure to a range of investment factors (also commonly known as investment styles) that may include low volatility, momentum, quality, value and small cap.

The fund is actively managed and the Investment Manager will not track any index. The portfolio of the fund will however be based on a model portfolio (the "Model Portfolio") constructed by reference to a series of MSCI World indices, as provided in the KIID and as may be amended from time to time, according to a dynamic allocation between those indices rebalanced from time to time.

AIA Investment Funds - AIA Asia (ex Japan) Equity Fund

The fund invests primarily, i.e. at least 50% of its Net Asset Value, in equity securities and equity-related securities issued by companies either (i) incorporated in the Asia (ex-Japan) region, (ii) listed, traded or quoted on the stock exchanges in the Asia (ex-Japan) region or (iii) have most of their assets and/or activities located in the Asia (ex-Japan) region.

The fund will invest in companies it believes to have above average earnings growth potential compared to other companies or in companies it believes are undervalued compared to their perceived worth. The Investment Manager uses a bottom-up approach to buying and selling investments for the fund.

AIA Investment Funds - AIA Greater China Equity Fund

The fund invests primarily, i.e. at least 50% of its Net Asset Value, in equity securities and equity-related securities issued by companies (i) incorporated in the Greater China region (i.e. the People's Republic of China ("PRC"), the Hong Kong S.A.R., Macau S.A.R. and the Taiwan R.O.C.), (ii) listed, traded or quoted on the stock exchanges in the Greater China region or (iii) having most of their assets and/or activities located in the Greater China region.

The fund will invest in companies it believes to have above average earnings growth potential compared to other companies or in companies it believes are undervalued compared to their perceived worth. The Investment Manager uses a bottom-up approach to buying and selling investments for the fund. The fund may invest in equity securities and equity-related securities of companies of any market capitalisation and of any industry or sector.

AIA Investment Funds - AIA India Equity Fund

The fund invests primarily, i.e. at least 50% of its Net Asset Value, in equity securities and equity-related securities issued by companies (i) incorporated in India, or (ii) listed, traded or quoted on the stock exchanges in India, or (iii) having most of their assets and/or activities located in India.

The fund will invest in companies it believes to have above average earnings growth potential compared to other companies or in companies it believes are undervalued compared to their perceived worth. The Investment Manager uses a bottom-up approach to buying and selling investments for the fund. The fund may invest in equity securities and equity-related securities of companies of any market capitalisation and of any industry or sector.

INFORMATION ON THE MANAGER OF ILP SUB-FUND

The Manager of the ILP Sub-Fund is AIA Investment Management Private Limited ("AIAIM"), a Singapore-incorporated company that is part of the AIA Group. It was incorporated in 2016 to undertake investment management activities, specialising in the Asian region, for AIA Group's insurance business.

In doing so it has assumed the investment management activities previously carried out by AIA Singapore Private Limited ("AIA Singapore"), which has been operating in Singapore since 1931. AIAIM has built on AIA Singapore's expertise, bringing across its' investment professionals and further strengthening the investment team to reflect its role as a centre for excellence in Asian regional fund management. AIAIM is licensed by the Monetary Authority of Singapore.

AIA Group is a market leader in the Asia Pacific region (ex Japan) based on life insurance premiums and holds leading positions across the majority of its 18 markets in this region. As of 30 June 2020, AIA Group had USD 251 billion of total investments

including financial investments, investment property, property held for own use, and cash and cash equivalents. AIA Group and AIA Singapore have been managing insurance assets for more than 50 years.

In the event that the Manager becomes insolvent, the assets of the ILP Sub-Fund will not be affected as they continue to be held by the Custodian in an account separate from the Manager's other accounts.

AIA Investment Management Private Limited

Singapore-incorporated company that is part of the AIA Group. It was incorporated in 2016 to undertake investment management activities, specialising in the Asian region, for AIA Group's insurance business. In doing so it has assumed the investment management activities previously carried out by AIA Singapore Private Limited ("AIA Singapore"), which has been operating in Singapore since 1931. AIAIM has built on AIA Singapore's expertise, bringing across its' investment professionals and further strengthening the investment team to reflect its role as a centre for excellence in Asian regional fund management. AIAIM is licensed by the Monetary Authority of Singapore.

AIA Group is a market leader in the Asia Pacific region (ex Japan) based on life insurance premiums and holds leading positions across the majority of its 16 markets in this region. As of 30 June 2020, AIA Group had USD 251 billion of total investments including financial investments, investment property, property held for own use, and cash and cash equivalents. AIA Group and AIA Singapore have been managing insurance assets for more than 50 years.

The Underlying Funds uses the services of a Depositary to safeguard the asset of the Fund. If the Managers becomes insolvent, the Depositary shall ensure the safekeeping of the Fund's assets, which will be held in custody either directly by the Depositary or, to the extent permitted by applicable laws and regulations, through other third party entities acting as delegates. The Depositary has also to ensure that the Fund's cash flows are properly monitored, and in particular that the subscription monies have been received and all cash of the Fund has been booked in the cash account in the name of (i) the Fund, (ii) the Management Company on behalf of the Fund or (iii) the Depositary on behalf of the Fund.

AIA Investment Management HK Limited

AIA Investment Management HK Limited is a company incorporated under the laws of Hong Kong whose main business address is at Unit 1203 12/F Kerry Centre, 683 King's Road, Quarry Bay, Hong Kong. AIA Investment Management HK Limited is regulated by the Securities and Futures Commission in Hong Kong for the purpose of asset management and has been managing insurance assets since 2019.

Baillie Gifford Overseas Limited

Baillie Gifford was founded in Edinburgh in 1908 and is an independent investment manager which primarily manages investment strategies for institutional investors, including financial institutions in North America, Europe, Japan and Australia. Baillie Gifford actively manage specialist equity fixed income and multi-asset portfolios, and as of 31 March 2020, Baillie Gifford's assets under management was USD 245 billion, amongst the top 10 fund managers in the United Kingdom.

It is incorporated under the laws of Scotland and has a registered office at Calton Square, 1 Greenside Row, Edinburgh EH1 3AN. The Sub-Manager is authorised for the purpose of asset management and regulated by the UK's Financial Conduct Authority under local law or regulation.

The Underlying Funds uses the services of a Depositary to safeguard the asset of the Fund. If the Managers becomes insolvent, the Depositary shall ensure the safekeeping of the Fund's assets, which will be held in custody either directly by the Depositary or, to the extent permitted by applicable laws and regulations, through other third party entities acting as delegates. The Depositary has also to ensure that the Fund's cash flows are properly monitored, and in particular that the subscription monies have been received and all cash of the Fund has been booked in the cash account in the name of (i) the Fund, (ii) the Management Company on behalf of the Fund or (iii) the Depositary on behalf of the Fund.

Wellington Management Company LLP

Wellington Management is one of the world's largest independent investment management firm, with over USD 1 trillion in client assets under management as of 31 March 2019. Tracing its roots to 1928, Wellington Management has been managing collective investment schemes and discretionary funds for over 80 years and serves a wide range of institutional clients around the world, including pension funds, sovereign-wealth funds, endowments and foundations, family offices, fund sponsors and insurance companies in over 60 countries.

It is a limited liability partnership organised under the laws of Delaware, United States of America. The Sub-Manager is authorised for the purpose of asset management and regulated by the U.S. Securities and Exchange Commission under local law or

regulation. Wellington Management Company LLP as Sub-Manager, which may appoint the delegates listed below as its sub-managers or investment advisors and shall pay them out of its own sub-investment management fee:

- Wellington Management International Ltd, authorised and regulated by the Financial Conduct Authority, United Kingdom
- Wellington Management Japan Pte Ltd, regulated by the Financial Services Agency in Japan
- Wellington Management Hong Kong Ltd, regulated by the Securities and Futures Commission in Hong Kong

The Underlying Funds uses the services of a Depository to safeguard the asset of the Fund. If the Managers becomes insolvent, the Depository shall ensure the safekeeping of the Fund's assets, which will be held in custody either directly by the Depository or, to the extent permitted by applicable laws and regulations, through other third party entities acting as delegates. The Depository has also to ensure that the Fund's cash flows are properly monitored, and in particular that the subscription monies have been received and all cash of the Fund has been booked in the cash account in the name of (i) the Fund, (ii) the Management Company on behalf of the Fund or (iii) the Depository on behalf of the Fund.

BlackRock Financial Management, Inc.

Founded in 1988, BlackRock is the world's largest provider of investment management with assets under management of USD 8.6 trillion, as of 31 December 2020. With over 2000 investment professionals managing equity, fixed income, cash management, alternative investment, real estate and advisory strategies.

It is incorporated under the laws of the State of Delaware and has a registered office at 55 East 52nd Street, New York City, NY 10055, United States of America. The Sub-Manager is authorised for the purpose of asset management and regulated by the United States of America's Securities and Exchange Commission under local law or regulation.

BlackRock Financial Management, Inc.

as Sub-Manager, which may appoint the delegates listed below as its sub-managers or investment advisors and shall pay them out of its own sub-investment management fee:

- BlackRock Investment Management (UK) Limited, regulated by the Financial Conduct Authority, United Kingdom
- BlackRock Asset Management North Asia Limited, regulated by the Securities and Futures Commission in Hong Kong

The Underlying Funds uses the services of a Depository to safeguard the asset of the Fund. If the Managers becomes insolvent, the Depository shall ensure the safekeeping of the Fund's assets, which will be held in custody either directly by the Depository or, to the extent permitted by applicable laws and regulations, through other third party entities acting as delegates. The Depository has also to ensure that the Fund's cash flows are properly monitored, and in particular that the subscription monies have been received and all cash of the Fund has been booked in the cash account in the name of (i) the Fund, (ii) the Management Company on behalf of the Fund or (iii) the Depository on behalf of the Fund.

RISKS

General Risk

The value of the ILP Sub-Fund and the Underlying Fund's assets may be affected by uncertainties and risks associated with investments. The Net Asset Value of the ILP Sub-Fund and the Underlying Fund will be influenced by the prices of these investments. This will in turn have an impact on the value of Units of the ILP Sub-Fund. Past performance is not necessarily a guide to future performance and investment in the ILP Sub-Fund should be regarded as a medium to long-term investment.

Interest Rate

Bonds and other fixed income securities are interest rate sensitive, which means that their values and consequently, the Net Asset Value of the ILP Sub-Fund which invest in such securities directly or through Underlying Fund, will fluctuate as interest rates fluctuate. An increase in interest rates will generally reduce the value of the fixed income securities. The performance of each ILP Sub-Fund which invests in bonds and other fixed income securities directly or through Underlying Fund, therefore will depend in part on the ability of the Manager of the ILP Sub-Fund or the Underlying Fund to anticipate and respond to such fluctuations in market interest rates and to utilise appropriate strategies to maximise returns to you while attempting to minimise the associated risks to its investment capital.

Credit Risk

Bonds and other fixed income securities and bank deposits are subject to credit risks, such as deterioration in the credit quality of the issuers, default by issuers and banks and general widening of credit spreads. This means that their values and consequently, the Net Asset Value of the ILP Sub-Fund which invest in such securities directly or through Underlying Fund, will fluctuate depending on the credit risk of the securities. A deterioration in the credit quality of the issuers, default by issuers or increase in credit risk premiums will generally reduce the value of the fixed income securities. The performance of each ILP Sub-Fund which invests in bonds and other fixed income securities and bank deposits directly or through Underlying Fund, therefore will depend in part on the ability of the Manager of the ILP Sub-Fund or the Underlying Fund to anticipate and respond to such changes in credit risk and to utilise appropriate strategies to maximise returns to you while attempting to minimise the associated risks to its investment capital.

Equity Risk

The value of the equity securities which the ILP Sub-Fund invest directly in or through Underlying Fund, will fluctuate depending upon the general trends of stock markets, prevailing interest rates as well as the financial and operating performance of the

issuers of those equity securities. The economic environment of the countries and the performance of the industries which the ILP Sub-Fund invests in directly or through Underlying Fund will have an impact on the value of the equity securities acquired. The value of the ILP Sub-Fund and the Underlying Fund are affected by such changes in the market conditions and interest rates.

Market Risk

The value of the ILP Sub-Fund and the Underlying Fund's assets may be affected by uncertainties such as international political developments, changes in government policies, taxation, restrictions on foreign investment and currency repatriation, currency fluctuations and other developments in the laws and regulations of countries in which investments may be made. Furthermore, it should be noted that the legal infrastructure and accounting, auditing and reporting standards in certain countries in which investments may be made do not provide the same degree of investor protection or information to you as would generally apply in major securities markets. As the ILP Sub-Fund and Underlying Fund invest in securities in various markets, e.g. global, Asia ex-Japan, etc, the Net Asset Value of the ILP Sub-Fund and Underlying Fund will be influenced by the prices of these investments. This will in turn have an impact on the value of Units of the ILP Sub-Fund.

Counterparty Risk

There is a risk of counterparty defaulting in some markets as there may be no secure method of delivery against payment. It may be necessary to make payment on a purchase or delivery on a sale before receipt of the securities or, as the sale may be, sale proceeds.

Regulatory Risk

You should be aware that some of the industries which the ILP Sub-Fund and the Underlying Fund invest in may be subject to greater government regulations than many other industries in certain countries. Changes in government policies and the need for regulatory approval may have a material adverse effect on these industries. The companies which the ILP Sub-Fund invests in directly or through Underlying Fund may also be subject to risks of developing technology and communications, competitive pressures and other factors and are dependent upon consumer and business acceptance as new technologies evolve. Trading in such securities may be subject to more abrupt price movements.

Political Risk

Investments in countries with less stable political and economic environments may be more volatile than those in the developed countries. The prices of investments in these markets may be influenced by economic and political conditions and interest rates.

Investment Risk

There can be no guarantee against loss, nor any assurance that the ILP Sub-Fund's investment objective will be attained. The value of investments and the income from them and therefore the value of, and income from, the Units of each ILP Sub-Fund can fall as well as rise and you may not realize the same amount that you invested. Investment in the ILP Sub-Fund may only be suitable for you if you can accept the associated volatility and risks and are prepared to take a medium to longer term view of your investment.

Specialized Investment Risk

You should be aware while specialized investments, i.e. investments in a single country, specific industries, sectoral or regional Fund may present greater opportunities and potential for capital appreciation, they may also be subjected to higher risks as they may be less diversified than a global portfolio. The legal infrastructure and accounting, auditing and reporting standards in certain countries in which investments may be made do not provide the same degree of investor protection or information to you as would generally apply in major securities markets.

Derivative Risk

The ILP Sub-Fund and the Underlying Fund are authorised to use derivative instruments from time to time. Derivative instruments are financial contracts whose values are "derived" from the value of the underlying assets. While the professional use of derivatives may be beneficial to the overall investment portfolio, derivatives in themselves involve different risks which may be greater than those of more traditional investments.

As the volatility of prices of derivative instruments may be higher than that of their underlying stocks, commodities or other benchmarks, these derivative instruments are riskier.

Currency / Exchange Rate Risk

The Net Asset Value per unit of the ILP Sub-Fund are computed in Singapore Dollars, whereas certain Underlying Fund and the securities which the ILP Sub-Fund invests in are denominated in foreign currencies. Changes in the exchange rate of the Singapore Dollar against the currencies of denomination of the Underlying Fund and the securities which the ILP Sub-Fund invests in will have an impact on the value of the units.

The investments of the ILP Sub-Fund and the Underlying Fund may each be denominated in a number of different currencies and hence be subjected to fluctuations in currency exchange rates and in certain cases, exchange control regulations. Further, the underlying investments of the Underlying Fund may be acquired in a wide range of currencies, some of which may not be freely convertible currencies. It may not be possible or practicable to hedge against the consequent currency risk exposure and in certain instances the Manager may not consider it desirable to hedge against such risk. The Manager will enter into hedging transactions at its sole discretion.

If you are a non-Singaporean, there may be state regulations governing the outward remittance of your share of net profits and dividends and the repatriation of your investments in a foreign currency.

Liquidity Risk

There is no secondary market for the ILP Sub-Fund. All redemption requests should be made to AIA Customer Service Centre or through your AIA Financial Services Consultant or Insurance Representative. If you are a non-Singaporean, there may be state regulations governing the outward remittance of your share of net profits and dividends and the repatriation of your investments in a foreign currency.

You should note that there may be a limit on the number of units that can be redeemed on any Dealing Day and an investor may not be able to redeem on a Dealing Day if the redemption limit is imposed.

Some investments made in smaller markets may be less liquid and the limited liquidity of these markets may therefore affect the respective underlying fund's ability to acquire or dispose of securities at the price and time it desires.

Taxation

You should note that the proceeds from the sale of securities in some markets or the receipt of any dividends or some other income may be or may become subject to tax, levies, duties or other fees or changes imposed by the authorities in that market, including taxation levied by withholding at source.

Stock Connect

The ILP Sub-Fund and the Underlying Fund may invest in China A-Shares of mainland China through the Shanghai-Hong Kong Stock Connect and/or the Shenzhen-Hong Kong Stock Connect. The current regulations relating to the Stock Connect are untested and subject to change which may have potential retrospective effects. The Stock Connect is subject to quota limitations which may restrict the ILP Sub-Fund's and the Underlying Fund's ability to invest in China A-Shares through the Stock Connect on a timely basis. Where a suspension in the trading through the Stock Connect is effected, the ILP Sub-Fund's and the Underlying Fund's ability to access the mainland China market will be adversely affected. The mainland China regulations impose certain restrictions on selling. Hence the ILP Sub-Fund and the Underlying Fund may not be able to dispose of holdings of China A-Shares in a timely manner. When a stock is recalled from the scope of eligible stocks for trading via the Stock Connect, the stock can only be sold but restricted from being bought. Due to the differences in trading days of the mainland China and the Hong Kong markets, the ILP Sub-Fund and the Underlying Fund may be subject to a risk of price fluctuations in China A-Shares during the time when the Stock Connect is not trading as a result.

Trading in securities through the Stock Connect is subject to clearing and settlement risk. If Clearing Corporation Limited ("ChinaClear") defaults, the ILP Sub-Fund and the Underlying Fund may suffer delays in the recovery process or may not be able to fully recover its losses from ChinaClear. Further, the investments of the ILP Sub-Fund and the Underlying Fund are not covered by Hong Kong's Investor Compensation Fund.

Restrictions on selling are imposed by front-end monitoring. PRC regulations require that before an investor sells any share, there should be sufficient shares in the account; otherwise Shanghai Stock Exchange ("SSE") will reject the sell order concerned. Stock Exchange of Hong Kong Limited ("SEHK") will carry out pre-trade checking on China A Shares sell orders of its participants (i.e. the stock brokers) to ensure there is no over-selling.

The Stock Connect is subject to operational risk. If the systems of the Stock Exchange of Hong Kong Limited ("SEHK") and market participants fail to function properly, trading in both markets through the program could be disrupted.

The precise nature and rights of the Underlying Fund as the beneficial owners of the China A-Shares through Hong Kong Securities Clearing Company Limited ("HKSCC") as nominee is not well defined under the mainland China law. Therefore the exact nature and methods of enforcement of the rights and interests of the Underlying Fund under the mainland China law is uncertain. If HKSCC becomes subject to winding up proceedings in Hong Kong it is not clear if the China A-Shares will be regarded as held for the beneficial ownership of the Underlying Fund or as part of the general assets of HKSCC available for general distribution to its creditors.

The China Securities Regulatory Commission ("CSRC") Stock Connect rules are departmental regulations having legal effect in the PRC. However, the application of such rules is untested, and there is no assurance that PRC courts will recognise such rules, e.g. in liquidation proceedings of PRC companies.

The Stock Connect is novel in nature, and is subject to regulations promulgated by regulatory authorities and implementation rules made by the stock exchanges in the PRC and Hong Kong. Further, new regulations may be promulgated from time to time by the regulators in connection with operations and cross-border legal enforcement in connection with cross-border trades under the Stock Connect. Such regulations may also have potential retrospective effect.

The regulations are untested so far and there is no certainty as to how they will be applied. Moreover, the current regulations are subject to change. There can be no assurance that the Stock Connect will not be abolished. The relevant funds which may invest in the PRC markets through Stock Connect may be adversely affected as a result of such changes.

The ILP Sub-Fund and the Underlying Fund may invest in the Small and Medium Enterprise ("SME") board and/or the ChiNext market of the Shenzhen Stock Exchange via the Shenzhen-Hong Kong Stock Connect. Investments in the SME board and/or ChiNext market may result in significant losses for the Fund and its investors. Additional risks, namely, higher fluctuation on stock prices, over-valuation risk, differences in regulations and delisting risk, apply to such investments.

QFII

Under the prevailing regulations in the PRC, foreign investors can invest in China A Shares through institutions that have obtained QFII status in the PRC. The current QFII regulations impose strict restrictions (including rules on investment restrictions, minimum investment holding period as well as remittance and repatriation of principal and profits) on China A Share investment. The ILP Sub-Fund may not be able to freely repatriate principal and profits from China and there may be potential lock-up periods imposed for repatriation. The restrictions on or the delays in the repatriation of principal and profits may have an unfavourable impact on the ILP Sub-Fund. The QFII policy and related laws, rules and regulations in the PRC are also subject to change and such change may have potential retrospective effect. The ILP Sub-Fund's ability to make the relevant investments or to fully implement or pursue its investment objective and strategy is subject to such laws, rules and regulations. Investments by a fund in China A Shares and other permissible securities denominated in Renminbi will be made through the QFII in Renminbi

In extreme circumstances, the ILP Sub-Fund may incur losses due to limited investment opportunities, or may not be able to fully implement or pursue their investment objectives or strategy, due to QFII investment restrictions, illiquidity of the China A Shares, and/or delay or disruption in execution of trades or in settlement of trades

The ILP Sub-Fund may also suffer substantial losses if there is insufficient QFII quota allocated for the ILP Sub-Fund to make investments, the approval of the QFII is being revoked/terminated or otherwise invalidated as the ILP Sub-Fund may be prohibited from trading of relevant securities and repatriation of the funds' monies, or if any of the key operators or parties (including QFII custodian/brokers) is bankrupt/in default and/or is disqualified from performing its obligations (including execution or settlement of any transaction or transfer of monies or securities).

EXPENSE RATIO

The expense ratio for the period 1 January 2020 to 31 December 2020 is 1.66%.

The expense ratio is calculated in accordance with the Investment Management Association of Singapore's guidelines on the disclosure of expense ratios and based on the figures in the ILP Sub-Fund's latest audited account.

The following expenses are excluded from the calculation of the expense ratio:

- (a) charges for insurance coverage;
- (b) brokerage and other transaction costs;
- (c) performance fees;
- (d) foreign exchange gains and losses;
- (e) front or back-end loads arising from the purchase or sale of other funds; and
- (f) tax deducted at source or arising from income received

TURNOVER RATIO

The turnover ratio of the ILP Sub-Underlying Fund follows that of the Underlying Funds as the ILP Sub-Fund invests all or substantially all of its assets into its Underlying Funds.

Underlying Funds	AIA Investment Funds - AIA Global Quality Growth Fund	AIA Investment Funds - AIA New Multinationals Fund	AIA Investment Funds - AIA Diversified Fixed Income Fund	AIA Investment Funds - AIA Global Multi-Factor Equity Fund
Turnover ratio	8.30%*	9.53%*	140.56%*	61.76%*

* Unaudited as at 31 December 2020

SOFT DOLLAR ARRANGEMENT

AIA Investment Management Private Limited
AIA Investment Management HK Limited

In the management of the Sub-Fund and Underlying Fund(s), the Manager may enter into soft dollar arrangements with brokers who execute transactions on behalf of the Sub-Fund in accordance with applicable regulations. Soft dollars may be received if it can reasonably be expected to assist the Manager in its provision of portfolio management services generally including but not limited to:

- Research and advisory services;
- Portfolio analyses, including valuation and performance;
- Market analyses;
- Data and quotation services; and
- Computer hardware and software or any other information facilities to the extent that they are used to support the investment decision making process, the giving of advice, or the conduct of research or analysis

The Manager does not enter into unnecessary trades to achieve a sufficient volume of transactions to qualify for soft dollars and transactions are executed on the best available terms, taking into account the market at the time for transactions of the kind and size concerned.

The Manager does not receive the following goods and services under soft dollar arrangement:

- Travel
- Accommodation
- Entertainment
- General administrative Goods and Services
- General office equipment of premises
- Membership fees
- Employee salaries or direct money permit

Baillie Gifford Overseas Limited

The Sub-Manager shall not enter into any Soft Commission Arrangements involving, or on behalf of, the Underlying Fund(s).

Wellington Management Company LLP

In the management of the Underlying Fund(s), the Sub-Manager may accept soft dollar commissions from, or enter into soft dollar arrangements with, stockbrokers who execute trades on behalf of the Fund and the soft dollars received are restricted to the following kinds of services:

- (a) research, analysis or price information;
- (b) performance measurement;
- (c) portfolio valuations; and
- (d) administration services.

The Sub-Manager does not enter into unnecessary trades to achieve a sufficient volume of transactions to qualify for soft dollars and transactions are executed on the best available terms, taking into account the market at the time for transactions of the kind and size concerned.

BlackRock Financial Management, Inc.

The Sub-Manager shall not enter into any Soft Commission Arrangements involving, or on behalf of, the Underlying Fund(s), except with the prior written consent of the Manager and subject to the conditions set out by the Manger. Once consent has been received, the Sub-Manager agrees:

- (i) to comply with all applicable Laws and industry standards on soft-dollars; and
- (ii) not to accept or enter into Soft Commission Arrangements with respect to any Underlying Fund(s) unless such Soft Commission Arrangements would assist the Sub-Manager in its management of a Underlying Fund(s)

In the management of the Underlying Fund(s), the Sub-Manager may accept soft dollar commissions from, or enter into soft dollar arrangements with, stockbrokers who execute trades on behalf of the Fund and the soft dollars received are restricted to the following kinds of services:

- (a) research, analysis or price information;
- (b) performance measurement;
- (c) portfolio valuations; and
- (d) administration services.

The Sub-Manager does not enter into unnecessary trades to achieve a sufficient volume of transactions to qualify for soft dollars and transactions are executed on the best available terms, taking into account the market at the time for transactions of the kind and size concerned.

Risk Disclosure Statement for Funds

US Tax Withholding and Reporting under the Foreign Account Tax Compliance Act ("FATCA")

Under the FATCA provisions of the U.S. Hiring Incentives to Restore Employment ("HIRE") Act, where a Fund invests directly or indirectly in U.S. assets, payments to the Fund of U.S.-sourced income after 30 June 2014, gross proceeds of sales of US property by the Fund after 31 December 2016 and certain other payments received by the Fund after 31 December 2016 will be subject to 30% U.S. withholding tax unless the Fund complies with FATCA.

FATCA compliance can be achieved by entering into an agreement with the U.S. Secretary of the Treasury under which the Fund agrees to certain U.S. tax reporting and withholding requirements as regards holdings of and payments to certain investors in the Fund. Certain governments may enter into agreements directly with the U.S. government concerning U.S.-sourced income and the regulations and rules which are issued following these agreements will determine how the Fund can achieve FATCA compliance.

If the Fund is unable to satisfy the obligations imposed to avoid the imposition of the withholding tax, certain U.S.-sourced payments to the Fund may be subject to 30% withholding tax, which could reduce the cash available for investors. Any amounts of U.S. tax withheld may not be refundable by the Inland Revenue Service.

You are advised to consult your professional advisors on the impact of FATCA on any Fund that you have selected for allocation of any part of your Policy premium(s) and AIA Singapore makes no representation or warranty that a Fund is FATCA-compliant.

In the context of the above, a "Fund" means a collective investment scheme within the meaning of the Securities and Futures Act (Cap. 289), Singapore and the Notice No. MAS 307 applicable to Investment-Linked Policies issued by the Monetary Authority of Singapore.

The AIA Elite Adventurous Fund is an investment-linked policy (ILP) fund offered by AIA Singapore Private Limited ("AIA Singapore") and is only available under AIA Investment-Linked Policies. AIA Singapore is the product provider. This fund summary (IFPS) is prepared by AIA Singapore and the information presented is for informational use only. Investments are subject to investment risks including the possible loss of the principal amount invested. Past performance, as well as the prediction, projection or forecast on the economy, securities markets or the economic trends of the markets are not necessarily indicative of the future or likely performance of the ILP fund. The performance of the ILP fund is not guaranteed and the value of the units in the ILP fund and the income accruing to the units, if any, may fall or rise. A product summary and product highlights sheet relating to the ILP fund are available and may be obtained from your AIA Financial Services Consultant. A potential investor should read the product summary and product highlights sheet before deciding whether to subscribe for units in the ILP fund. AIA Singapore does not warrant or make any representations regarding the use or the results of the use of the figures generated in terms of their correctness, accuracy, reliability, or otherwise.
