Why choose AIA Secure Flexi Term?

High coverage at affordable premiums

Getting life protection coverage doesn't always have to cost you a fortune. With premiums as low as S\$1.36 a day for S\$1 million coverage¹, AIA Secure Flexi Term offers protection against death, terminal illness, and terminal cancer.²

Terminal Cancer Benefit provides an extra safety net of protection that pays out the coverage amount² when diagnosed with an end-stage cancer condition.

Guaranteed premiums

We've ensured that your premiums (based on the age when you first sign up) stay the same throughout the policy period³, so you can enjoy the confidence to work out a financial plan for the future with ease.

Protection that lasts a lifetime

As our life expectancy increases, getting life insurance coverage that lasts longer becomes even more important. AIA Secure Flexi Term lets you safeguard your legacy with two types of coverage options:

Renewable term option

- Choice of coverage for 5, 10, 20, or 30 years
- Guaranteed renewal up to age 101 regardless of health condition

Level term option

- Choice of coverage up to age 65, 75, or 100
- Premiums stay the same throughout the coverage term

Made flexible to suit your needs

If your needs change along the way, this plan gives you the flexibility to convert⁴ to an AIA endowment, investment-linked, or whole life plan before age 70 with no further medical underwriting required.

Enhance your protection with riders

Customise how comprehensive you want your coverage to be with these optional riders:

- Stay protected against 43 major critical illnesses with Critical Cover rider. Plus, extend your coverage with Early Critical Cover rider to add on protection for 32 early and 29 intermediate critical illnesses, as well as 5 special conditions.⁵
- Get extra assurance with Total & Permanent Disability rider in the event of disability.
- Cover future premiums with a selection of Premium Waiver riders should critical illness or disability happen.

- Affordable way to leave a legacy while enjoying high coverage at a lower premium outlay

A safety net for your family

May (age 25, non-smoker) just started her working life after graduating from university. Despite a limited budget, she wants a plan that can give her family high financial protection in case she passes away unexpectedly. May decides to purchase an AIA Secure Flexi Term plan with 10 years renewable term and Critical Cover rider for greater assurance.

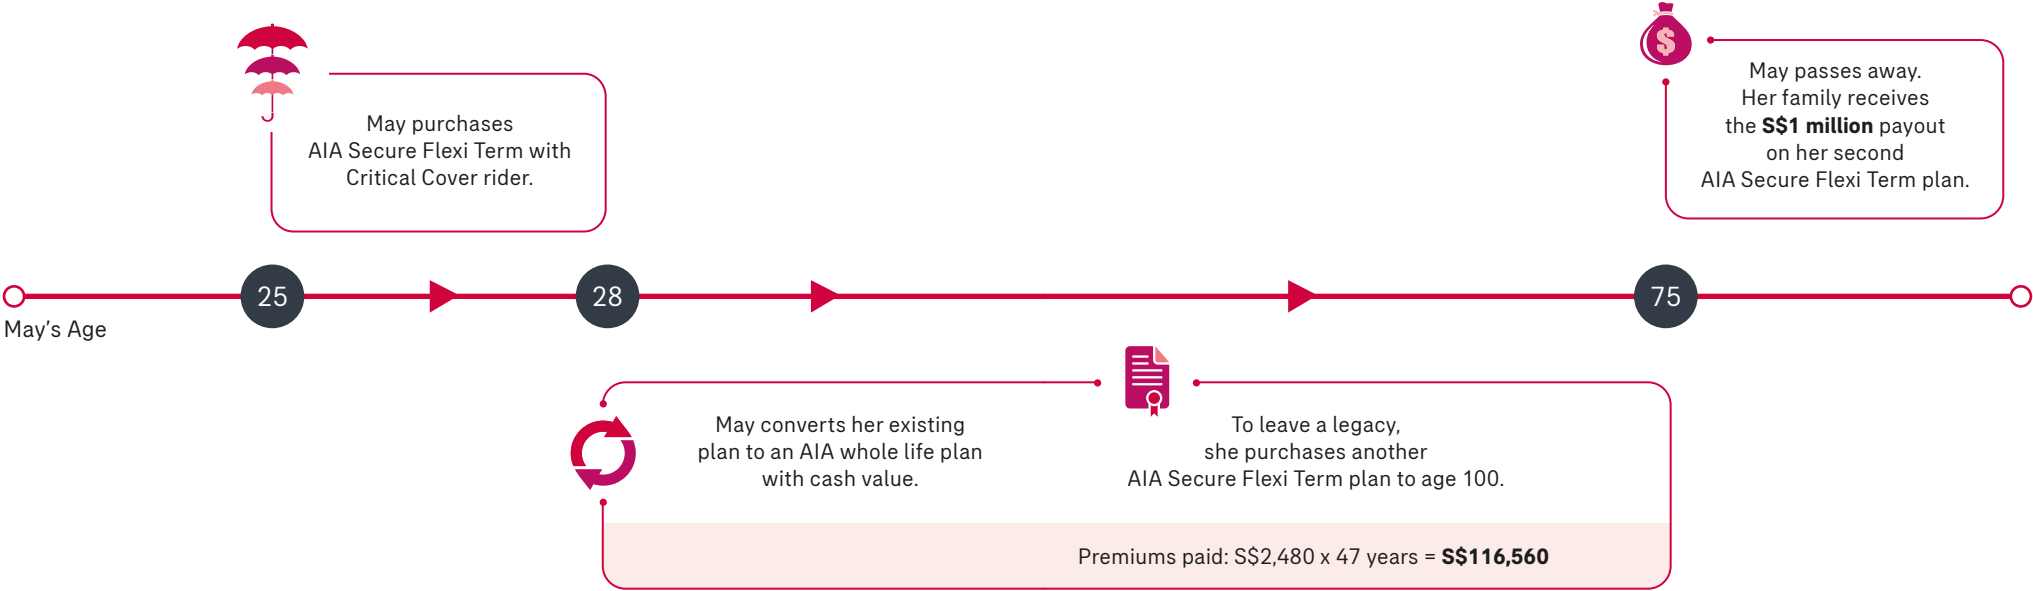

For a coverage of S\$500,000, May only needs to pay a premium of S\$49.18 monthly for 10 years. With the guaranteed renewal feature, her plan will be automatically renewed at every 10-year interval up to age 101.

A lasting legacy for your children

At age 28, May gets married and is planning to have children. With more disposable income now, she chooses to convert her existing AIA Secure Flexi Term into an AIA whole life plan that can accumulate cash value, with no medical underwriting required.

To leave a lasting legacy for her family, May purchases another AIA Secure Flexi Term with S\$1 million coverage to age 100. She pays a fixed premium of S\$2,480 annually.

Unfortunately, May passes away at the age of 75 and her family receives her legacy of S\$1 million.

General Notes:

There are exclusions such as pre-existing conditions, whereby no benefits will be payable. Waiting period is applicable before the benefits will be payable. You are advised to read the relevant policy contract for details.

- ¹ Premium amount is illustrated based on a 25 year old, male, non-smoker, who bought a basic plan with 30 years policy term. The daily premium is calculated based on the annual premium divided by the total number of days in a year.
- ² The policy will terminate once the full 100% coverage amount of AIA Secure Flexi Term basic policy is paid out upon death, terminal illness, or terminal cancer.
- ³ For renewable term plans, the policy period refers to the original policy term. If the policy is renewed for the same coverage amount at the end of the original policy term, the renewal premium is not guaranteed and will be calculated based on the age at the time of renewal.
- ⁴ The plan can be converted to a whole life, endowment, or investment-linked plan offering equivalent or similar coverage (which we make available for conversion from time to time at our absolute discretion), without further medical underwriting up to the current insured amount, provided that all conditions for conversion are met. Conversion Privilege is only applicable for AIA Secure Flexi Term basic policy, Total and Permanent Disability Rider, and Critical Cover Rider. Please note that Early Critical Cover rider does not provide any Conversion Privilege. Please refer to the policy contract for the full terms and conditions.
- ⁵ The Early Critical Cover rider pays 100% of coverage amount upon diagnosis of any covered early or intermediate critical illnesses, less any amounts owing to us under the policy. A payout will reduce the coverage amount of both Critical Cover Rider and the AIA Secure Flexi Term basic policy. Only 1 claim is applicable per Special Condition, and the payout is 20% of coverage amount, up to a maximum of S\$25,000.
- ⁶ Premium discount is only applicable to premiums based on a standard life. It is not applicable to any extra premiums due to loading. Discount applicable from the second policy year onwards will depend on the AIA Vitality Status attained. The discount is capped at 15%.
- ⁷ Critical Cover rider is compulsory for juveniles aged 0 - 15.
