

AIA RETIREMENT SAVER (IV)

CHART THE PERFECT COURSE FOR YOUR RETIREMENT

Live your dream retirement with a plan tailored to your needs.

HEALTHIER, LONGER,
BETTER LIVES

Why change your needs to fit your plan, when you can have a plan that changes to fit your needs?

Age 30

"I want to save up little by little while I have time, so I can retire at 60 and pursue my passion for photography full time."

"I have some money saved away that I want to put in a plan and forget about until I retire, so I can have a nest egg waiting for me."

Age 40

Age 50

"I need a plan that will help me grow my lump-sum savings and retire at 60, so my wife and I can spend a few years travelling."

We all live life differently and have our own retirement dreams. But how do you find the right savings plan to make your dream a reality?

It's time to stop searching. Take charge of your savings plan to make it fit your dreams. In 3 easy steps, AIA Retirement Saver (IV) can be tailored to fit your future, bringing you closer to your retirement goals through every life stage.

Planning your retirement has never been so simple

Putting off your retirement plans? With AIA Retirement Saver (IV), planning for the future is simpler than you think. Enjoy the flexibility to tailor a financial plan that suits your lifestyle needs in 3 easy steps.

STEP 01

Choose when you want to start receiving your retirement income

Always wanted to retire early? You can, with the option of receiving retirement income from as early as age 50.

STEP 02

Choose how long you wish to receive your preferred retirement income for

Supplement your desired retirement lifestyle with monthly retirement income over a period of 15 or 20 years.

STEP 03

Choose a premium term that suits your financial circumstances

Choose to pay a lump sum as a single premium, or spread your premiums over a longer period (5 years, 10 years, or up to 5 years before your chosen retirement age) for regular, more affordable payments.

No medical check-up required to start your retirement plan!

Retire with confidence

Benefits for a stress-free retirement

Guaranteed monthly retirement income

This guaranteed income stream is paid over your choice of 15 or 20 years, supplementing your CPF to give you greater financial freedom.

Capital guaranteed¹

Every dollar that you contributed is guaranteed at your selected retirement age, so rest easy and enjoy your retirement!

Defer payment of premiums²

You can enjoy 12 consecutive months of interest-free deferred premium with the Premium Pass Option, to ensure that your AIA Retirement Saver (IV) plan will not be disrupted if you're retrenched.

Potential returns to enhance retirement income

Enjoy potential monthly dividends that step up every year

Start enjoying potential monthly dividends from your selected retirement age. The dividends will increase by about 5% every year³, which will enhance your guaranteed retirement income stream and cushion the impact of inflation.

Attractive returns on your plan

Enjoy an attractive potential yield of up to 4.17% p.a.⁴ upon policy maturity.

Receive a one-time terminal dividend (non-guaranteed)

Receive an extra bonus for your retirement funds or a small token for your family upon claim, maturity or surrender of policy.

Don't let critical illness delay your retirement

Should a critical illness like cancer or heart disease strike, it's important to be able to halt your plans and step away from work, so you can focus on getting back on your feet.

Protect your retirement dreams by adding on a Critical Protector Waiver of Premium (II) or Early Critical Protector Waiver of Premium (II) rider to take care of all your future premiums upon the diagnosis of any of the covered 72 major stage or 149 multi-stage critical illnesses respectively.

Achieve your dream retirement with a plan that makes it easy

Dave (age 45) and Peter (age 55) both decided to secure their retirement with AIA Retirement Saver (IV), and to each receive a **retirement income of S\$1,000/month from the age of 65.**

Total premiums paid:

S\$207,150[#]

100% Capital Guaranteed¹ at age 65

● **Dave wants to receive his monthly retirement income for 20 years, and prefers to spread out premium payments over 15 years**

▶ **At age 50**

Unfortunately, Dave is retrenched and chooses to exercise the Premium Pass Option² to defer premium payments for 12 months to ensure his AIA Retirement Saver (IV) plan will not be disrupted.

▶ **At age 65**

Dave starts receiving his monthly retirement income. Over 20 years, he will receive a total of both:

Guaranteed retirement income (S\$1,000/month): **S\$240,000**

Additional retirement income (projected total dividends): **S\$137,810***

▶ **At age 85**

Projected lump-sum terminal dividend: **S\$149,360***

Total yield at maturity: **3.68% p.a.***

For S\$1.95 a day for the Critical Protector Waiver of Premium (II) rider, Dave will not need to pay future premiums to continue his AIA Retirement Saver (IV) plan if diagnosed with a covered critical illness.

Single premium paid:

S\$158,710

**100% Capital
Guaranteed¹
at age 65**

● **Peter wants to receive his monthly retirement income for 15 years, and prefers to pay a single premium**

▶ **At age 65**

Peter starts receiving his monthly retirement income. Over 15 years, he will receive a total of both:

Guaranteed retirement income (S\$1,000/month): **S\$180,000**

Additional retirement income (projected total dividends): **S\$61,630[^]**

▶ **At age 80**

Projected lump-sum terminal dividend: **S\$63,140[^]**

Total yield at maturity: **3.52% p.a.[^]**

Calculated based on premiums paid on annual mode.

* Calculated based on the illustrated investment rate of return of 4.25% p.a. If the investment rate of return is 3.00% p.a., the projected lump-sum terminal dividend at age 85 is S\$67,210, projected total dividends received is S\$62,010, and total yield at maturity is 2.35% p.a.

[^] Calculated based on the illustrated investment rate of return of 4.25% p.a. If the investment rate of return is 3.00% p.a., the projected lump-sum terminal dividend at age 80 is S\$28,410, projected total dividends received is S\$27,730, and total yield at maturity is 2.19% p.a.

Note: Diagrams are not drawn to scale, and figures quoted are for illustration purposes only. Monthly dividends and terminal dividend payable (if any) are non-guaranteed. Once credited to the policy, monthly dividends (if any) form part of the guaranteed benefits of the policy.

General Notes:

A waiting period is applicable before the benefits of Critical Protector Waiver of Premium (II) or Early Critical Protector Waiver of Premium (II) rider will be payable. You are advised to read the relevant policy contracts for details.

- ¹ Capital guaranteed at retirement age is applicable to the basic plan only, on the condition that all premiums are fully paid and received in annual mode with no indebtedness or partial surrender.
- ² The Premium Pass Option is not applicable for single premium. This option can only be exercised once after the third policy year in the event of Involuntary Retrenchment, provided that the policy is in force and premiums have been fully paid for the first three years.
- ³ The monthly dividends are not guaranteed, depending on the experience of the participating fund. The increase is approximately 5% per year, assuming dividends are declared every year as projected in the policy illustration.
- ⁴ The total yield to maturity is non-guaranteed and is based on the illustrated investment rate of return of 4.25% p.a. for a male non-smoker, aged 16, who chooses retirement age of 70, income payout period of 20 years, and pays a single premium. It is based on the assumption that all the retirement income and monthly dividends are also paid out. Based on the illustrated investment rate of return of 3.00% p.a., he can receive a total yield of up to 3.25% p.a. upon maturity.

Important Notes:

These insurance plans are underwritten by AIA Singapore Private Limited (Reg. No. 201106386R) ("AIA"). All insurance applications are subject to AIA's underwriting and acceptance.

This brochure is not a contract of insurance. The precise terms and conditions of these plans, including exclusions whereby the benefits under your policy may not be paid out, are specified in the relevant policy contracts. You are advised to read the policy contracts. As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid. You should consider carefully before terminating the policy or switching to a new one as there may be disadvantages in doing so. The new policy may cost more or have fewer benefits at the same cost. You may wish to seek advice from an AIA Financial Services Consultant for a financial analysis before purchasing a policy suitable to meet your needs.
